

**2006/2007 through 2013/2014 Capital Outlay Projects
California State University**

Campus:	Channel Islands
Project Name:	Infrastructure Improvements, Phases 1A and 1B
Project Description:	This project will provide needed utility infrastructure and distribution capacity to meet campus infrastructure deficiencies. The proposed two-phase project will include a new central plant system for hot and chilled water. The plant will serve the cooling loads in the central academic campus area through a chilled water distribution plan that will serve critical new academic and instructional facilities on campus. The hot water distribution system will replace the existing steam system in order to improve energy efficiency. Additional water, wastewater, storm drain, reclaimed water, natural gas, electrical, and telecom capacity will be provided to address existing deficiencies and meet enrollment growth needs.
Project Start Date :	Jan-07
Project Completion Date:	Dec-10
FTES:	
Project Status:	Closed
Bond Funding:	\$47134000
Bond Authorization:	6610-301-6048-07-07
Congressional District:	R-24
Senate District:	R-19
Assembly District:	D-41
