

**2006/2007 through 2013/2014 Capital Outlay Projects  
California State University**

<b>Campus:</b>	Fresno
<b>Project Name:</b>	Library Addition/Renovation
<b>Project Description:</b>	Group II equipment funds were requested for 2007/08 for this project that provides library space to serve 25,000 FTE the master plan enrollment. It demolished 109,000 GSF from Phases I (1956) and II (1965) to correct building systems that are inadequate, deteriorated, obsolete, costly to repair, and polluted with lead based paint and asbestos. Of the existing Phase III segment, 68,700 ASF were renovated to complement the three-story and basement addition of 179,762 ASF/243,900 GSF. The addition will provide the balance of needed library space for additional open stacks, high-density book stacks, 5,000 reader stations, technical and public service areas, and media storage. It also included 18,000 ASF of administrative space to accommodate the campus shortage per the CSU standard. The existing facilities were constructed to serve 13,000 FTE; the campus enrollment is 17,850 FTE and is severely short on adequate information resource space.
<b>Project Start Date :</b>	Jan-06
<b>Project Completion Date:</b>	Dec-08
<b>FTES:</b>	
<b>Project Status:</b>	Closed
<b>Bond Funding:</b>	\$6884000
<b>Bond Authorization:</b>	6610-302-6048-07-07
